SOLAR PORTABLE CASE

Features

1. Large size 10W solar panel for rapid charger
2. Optional input: charged by direct sunlight (DC) or grid (AC)
3. 3-state high intensity LED light
4. Maximum output: AC modified sine wave 150-300W
5. 3-level capacity indicator for easy battery status control
6. Overload protection for the best safety
7. Over heating protection
8. Battery low voltage disconnect and high voltage disconnect

Applications:

Sailing
Fishing
Climbing
Camping
Biking
Field Working
Exploring

More details:

PV module	10W	Lighting	3-State LED lamp*5
Internal Battery Capacity	AH10-HR 7,5A	Capacity indicator	LED (3-level)
Power input	DC by solar module or AC by grid	AC output	110 or 220V 50/55/60Hz
BOX	Aluminum alloy box	Solar module type	Poly crystalline
Charge controller	6A 12V	Inverter	150 or 300W
Dimensions EXT.	370*320*140mm	Weight	8kg
Warranty	1 year
